## Carton Contents

## Installing the PowerSaves Amiibo™ PC software

1. Go to the webpage: [www.codejunkies.com/PowerSaves-for-amiibo/](http://www.codejunkies.com/PowerSaves-for-amiibo/)
2. Select the PowerSaves Amiibo™ software option beneath the download section to download the software to a location of your choice.
3. Right click on the downloaded compressed file and select 'Extract All'.
4. Select 'Extract' to uncompress the files to the same location as the compressed file.
5. Double click the setup file stored within the uncompressed folder to begin the software installation.
6. Follow the on-screen prompts to install the software to a location of your choice.

## Connecting the PowerSaves Amiibo™ Portal to your PC

Insert the smaller end of the USB cable into the PowerSaves Amiibo™ portal ensuring that the USB connector is correctly orientated. Insert the larger end of the USB cable into a free USB connection on your PC.

Following the connection of the USB cable your PC will automatically install the generic drivers required to use the PowerSaves Amiibo™ portal with the PowerSaves Amiibo™ PC software.

## Applying Codes to your Amiibo Character

A wide array of codes are available to boost your Amiibo character's abilities and statistics giving you the ultimate edge. In order to use codes with your Amiibo character please follow these steps:

The character name is displayed if the character is recognised and only content for the supported games will be accessible. If the character is not recognised 'Amiibo' is displayed instead of the character name and all game content is accessible. Select the tick button to proceed to the next step.

3. Select the Apply Cheat button.

**Resetting your Amiibo** In order to prepare your Amiibo character for use with a different game, create a backup of your character data as detailed under the section 'Back up your Amiibo Character' and scroll to the game title 'Reset Game Data'. Use the tick button to apply the reset and confirm that you wish to do so.

## Back up your Amiibo Character

The backup feature enables you to create a backup of your Amiibo character data which you can restore at any time. The backup feature is particularly useful to allow you to reset your Amiibo character for use with a different game but without losing your Amiibo character data for the game you have previously been playing. We would recommend creating a backup of your Amiibo character data before applying codes to allow you to easily restore your current Amiibo character status if you choose to do so.

In order to create a backup of your Amiibo character please follow these steps:

1.  2. Select the tick button and proceed to the next step.

Amiibo	
Total Saves	1
Total of Games	3

3. Select the Backup button.

4. 

Enter a description for the backup you are creating to allow you to easily identify each backup. You may choose to enter the time and date, as well as the game you are playing.

Click to return to the previous screen.

Click to create your backup.

- 5.

## Restore to Power Tag

You can also restore your character data to the Power Tag supplied with Power Saves.

Simply place the Power Tag onto the PowerSaves portal. If the Power Tag is already configured as a backup character then data for that character will be displayed as in (2) above.

If the Power Tag has not yet been configured then a list of all current character data is shown. Choose the data that you want to write to Power Tag.

Place Power Tag onto your game portal and play as normal.

**N.B.** Power Tag is useful to try out PowerSaves before using them on your actual character.

If you wish to use Power Tag to restore a different character then you must reset it. This will erase the current character data so make sure you have already backed up this data. After resetting, the Power Tag will appear as un-configured and a list of all the character data will be show. Choose your character data as above.
